

RACE RESULTS

SCORING FORMULAE: Per Page 6 of the 1970 Rules and Regulations, time errors accumulate at the rate of 1 point per second and fuel errors accumulate at the rate of 10 points per tenth of a gallon. The plus and minus marks shown in each column indicate whether you were over or under your estimate. Naturally, they do not balance each other, but are added together to form the total score. Those fortunate enough to find no plus or minus marks were right on.
